

WHY WEATHER & SEASONS CHANGE

3rd Grade Living Worksheet by Derek Baldrige

Use the QR codes below to learn more about weather & why seasons change!
Participate in some fun activities too!

Weather vs. Climate

Watch the video & learn about variations in atmospheric conditions.
Use the DIY Activity Guide to build your own weather vane!

Fall Leaf Garland

Follow the tutorial video to make a Fall garland for your home,
or make a gift for someone special to you!

The Climate Time Machine

Take a look at how Earth's key climate indicators are changing the way
our world looks over time. Choose from Sea Ice, Global Temp, Carbon
Dioxide & more.

Test Your Knowledge

Take the Seasons quiz to test your knowledge on why Earth has
different seasons & what happens within them!

Become a Weather Watcher

Learn how to become a weather watcher.
Start keeping a weather journal on Monday. On Friday, predict what the
weather will be for Saturday & Sunday based on your observations.
